

Briefing and share copy

Ready-to-adapt material for staff, societies and student communications

20-minute introduction

0-3 minutes: explain purpose, emergency routes and participation choices.

3-8 minutes: locate verified campus support routes together.

8-14 minutes: practise the fictional disclosure on toolkit page 6.

14-18 minutes: discuss safe bystander choices and digital boundaries.

18-20 minutes: show where to find help and how to suggest corrections.

Facilitator preparation

Give a content notice for discussion of harassment and sexual violence. Allow participants to step out without explanation. Do not ask for personal experiences. Provide support contacts at the start and end, and have a private route for someone who needs help afterwards.

Suggested student announcement

Everyone deserves to feel safe and supported at university. Our Safe Campus Toolkit explains how to find help, support a friend, recognise concerning behaviour and protect your digital life. You can access support before deciding whether to make a formal report. Read the toolkit and save the verified campus contacts. In an emergency, call 999.

Publication checklist

- ☐ Local contacts and operating hours verified
- ☐ Safeguarding lead has reviewed referral guidance
- ☐ Accessible digital alternative available
- ☐ Report and support links tested on mobile
- ☐ Owner and review date published
- ☐ Sources and UK / England scope retained
